Hiroaki Yamamoto

Portfolio (Freelance era, 2013-2019)

[Working Title] Fingine (2016-present)

Coding Language:
Backend: Python, Docker (will be k8s)
DB: PostgreSQL
Frontend: JavaScript, TypeScript, HTML, pug, Sass

I'm coding a cloud-based accounting service for my life-work. It will provide a standard accounting platform, and some very useful plugins.

Growth Fountain (2014-2016)
Coding Language:
Backend: Python
DB: MongoDB
Frontend: Sass, CSS, JavaScript, CoffeeScript, HTML
Growth Fountain is a crowd funding platform in New York City.
My responsibility was to code core program.
